Final Project Proposal

1. The goal of this project is to create a website specifically for private lessons. This website will have information for lessons, pictures of myself in the room I'll be giving lessons and different videos. Videos of performances and videos in which I give a sample of a private lesson would be like.

2. This project solves in what was I can continue to give lessons during the pandemic. It provides another way to be able to make money and a way for people to access my content.

3. Resources Include:

a) Friends with recording of performances
b) https://www.wpkube.com/html5-cheat-sheet/ & https://websitesetup.org/wp-content/uploads/2019/08/HTML-CHEAT-SHEET.png & http://www.99lime.com/_bak/topics/you-only-need-10-tags/ (for help coding with HTML)
c) https://www.w3schools.com/css/ (for the CSS templates)
d) https://github.com/codeschool-projects/HTMLPortfolioProject (a Github repository in which they build a website with css and html)
e) https://projects.raspberrypi.org/en/projects?software%5B%5D=html-css-javascript (for info and guidance)
f) https://www.w3schools.com/js/js_examples.asp (for JavaScript help)

4. The audience is people who are interested in taking lessons with me.

5. Timeline:

- Thursday Nov 19th - Find Resources necessary (Including videos and pictures needed for website)
- Sunday Nov 22nd - Begin building website (first parts of HTML)
- Monday Nov 23rd - ask any question in regards to places you were stuck
- Wednesday Nov 25th- continue progress with HTML (have at least 60% done)
- Saturday Nov 28th - Finish up HTML things and begin adding CSS files to the website
- Monday Nov30th - Meet with Rachel and show what you have done

- Wednesday Dec 2nd - Finish up CSS and have JS in the mix already (Project should be over 75% done)
- Friday Dec 4th Finish up JS
- Monday Dec 7th-Friday Dec 11th - Final touches
- Monday Dec 14th (PRESENT)

6. I believe I should be assessed according to the level of programming that I've been able to reach in the class, being someone who had never done any kind of programming. I should also be assessed with how neat and presentable the website is to the average person who is looking for voice lessons.
